

# HP Z4 Rack G5 Workstation

**Compactly Rackable. Uniquely Powerful**

**Empower a flexible workforce with Z by HP pro-level performance in a high-density 1U footprint. Specifically designed to pack more units in a single rack, this slim powerhouse delivers the performance your team needs. All with the ability to upgrade and expand as compute demands evolve.**

## **1:1 Dedicated AI Workstation Power.**

Empower remote teams with the powerful and expandable Z4 Rack AI workstation. Access dedicated performance from almost any end point device with HP Anyware.<sup>2</sup> Add the HP Anyware Remote System Controller and manage hardware from a single interface.<sup>3</sup>

## **Workhorse Power. Compact 1U size**

This 1U AI workstation packs impressive power for local generative AI, 3D modeling and advanced VFX. Get up to 26 cores in an Intel® Xeon® W-2500 CPU,<sup>4</sup> support for NVIDIA RTX™ 6000 Ada graphics,<sup>5</sup> and up to 256 GB DDR5 memory.<sup>6</sup>

## **Accelerating advanced AI in-house**

Accelerate AI development and inferencing with the Z4 Rack AI workstation, with up to 1 NVIDIA RTX™ 6000 Ada Generation GPUs<sup>1</sup> delivering up to 1,457 AI TOPS for advanced AI. Work faster more securely by keeping files and data on a local workstation.

## **Designed with the planet in mind**

At HP, we care about the impact our products have on our people, communities, and the planet. Z products are designed with sustainability at the forefront. So, you can take pride in choosing Z, knowing that you are helping protect our shared future.<sup>7</sup>

# HP Z4 Rack G5 Workstation

## Operating Systems

Support your unique user needs with a choice of Windows 11 Pro for Workstations, or Linux® operating systems.<sup>9</sup>

## Intel® Xeon® W-Series Processors

Get the performance and productivity you need to run demanding professional applications with up to a 26-core Intel® Xeon® W-series processor and ECC Memory for data reliability.<sup>4,11</sup>

## NVIDIA RTX™ Graphics

Tackle advanced visual effects, rendering, and simulation projects with up to one NVIDIA RTX™ 6000 Ada GPU or support for up to two NVIDIA RTX™ 4000 Ada GPUs.<sup>12</sup>

## Memory

Accelerate your workflow and power through memory-intensive workloads with up to 256 GB DDR5 ECC memory for fast visualization, advanced visual effects, and rendering.<sup>13</sup>

## Storage

Get max storage across a variety of device options, including two front-accessible NVMe bays, dual pro PCIe devices, and two onboard M.2 connectors.<sup>14</sup>

## HP Anyware software

Your team can access the power of the Z4 Rack from any device with HP Anyware software, delivering fast responsiveness and image quality, even under varying network connections.<sup>2</sup>

## HP Anyware Remote System Controller

When paired with Z by HP desktops IT managers can perform out-of-band management tasks such as pre-boot access, BIOS updates, and re-imaging—from anywhere.<sup>3</sup>

## Power Supply

With dual power supply, you have power to stay up and running. Choose an aggregated option—combining two 675W power supplies—or a redundant option for critical workflows.<sup>15</sup>

## Expansion Slots

Support the highest performance workflows, today and beyond, with up to three PCIe x16 Gen 5 slots.<sup>16</sup>

## More Units in Your Data Center

Maximize space with this compact 1U workstation. Get 4x the number of units in a standard full-size rack than you would with a HP Z4 G5, and deliver dedicated power to more of your users.

## Rack Kit

The HP Z4 Rack Rail Rack Kit provides 26 inches of travel, allowing the unit to slide completely out of the rack for servicing and installation.<sup>17</sup>

## Long Lifecycle

Designed for simpler IT management, the Z4 Rack is built for longevity with a multi-year lifecycle. Plan for the future and avoid re-qualifying devices yearly, saving you time and money.

<b>Ecolabels</b>	EPEAT® registered configurations available <sup>9</sup>
<b>Energy star certified</b>	ENERGY STAR® certified (configurations available)

# HP Z4 Rack G5 Workstation

## Messaging Footnotes

<sup>1</sup> Based on HP internal analysis of 1U racked workstations with minimum 3 ISV certifications, configurable professional graphics, and a dedicated workstation brand as of October 2024. Most powerful based on max processor, graphics, memory, and power supply.

<sup>2</sup> Network access required. HP Anyware software and licensing are available through a 1- or 3-year subscription. Renewal is required after the subscription term. HP Anyware subscriptions are based on the number of concurrent PCoIP connections used (pay for the number of host connections, not the software) with a minimum order quantity of 5. For a limited time, an HP Anyware Professional subscription also includes access and support for ZCentral Remote Boost and ZCentral Connect and is available for purchase through an HP reseller or contact sales at [hp.com/Anyware](mailto:hp.com/Anyware). ZCentral Remote Boost Sender requires Windows 10 and 11, RHEL/CentOS (7 or 8), or UBUNTU 18.04 or 20.04 LTS operating systems. macOS (10.14 or newer) operating system and ThinPro 7.2 are only supported on the receiver side. ZCentral Connect requires Windows (10 or 11) or Windows Server (2016 or 2019) operating system, Microsoft Active Directory, and Intel Active Management Technology for select features. For system requirements and to install HP Anyware and Anyware Manager, refer to the Admin Guides at: <https://docs.teradici.com/find/product/hp-anyware>.

<sup>3</sup> HP Anyware Remote System Controller is sold separately and requires internet access. Automation of tasks and viewing system information only available with select Z desktop workstations, see datasheet for details. HP Anyware Integrated Remote System Controller not compatible with Z2 Mini platforms and not recommended for non-Z devices. HP service and support not available for non-Z devices. Full suite of hardware alerts available with select Z desktop workstations. See datasheet for details. HP Anyware Remote System Management must be purchased separately and is required for fleet management and viewing of consolidated reports from all devices. Planned to be available 2H of 2023.

<sup>4</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>5</sup> Graphics are sold separately or as an optional feature.

<sup>6</sup> Optional, configurable feature.

<sup>7</sup> Applies to HP PCs, Workstations and Displays manufactured after January 2019. Based on most Gold and Silver EPEAT® registrations by meeting all required criteria and achieving 50-74% of the optional points for EPEAT® Silver and 75-100% of the optional points for EPEAT® Gold according to IEEE 1680.1-2018 EPEAT®. Status varies by country. Visit [www.epeat.net](http://www.epeat.net) for more information.

<sup>8</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply, and additional requirements may apply over time for updates. See <http://www.windows.com>.

<sup>9</sup> WSL2 requires Windows 10 or higher, Intel Core i5 processor or higher and is available on select Z workstations. You must be running Windows 10 version 2004 and higher (Build 19041 and higher) or Windows 11.

<sup>10</sup> Error Correction Code (ECC) memory is only available on Intel® Xeon® processor options.

<sup>11</sup> Graphics are sold separately or as an optional feature. One graphics card can be configured at purchase, additional graphics cards can be purchased as an after-market option.

<sup>12</sup> Optional, configurable feature. Error Correction Code (ECC) memory is only available on Intel® Xeon® processor options.

<sup>13</sup> Optional, configurable features. For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 35GB is reserved for system recovery software.

<sup>14</sup> Second power supply available as configured to order or as an after-market option.

<sup>15</sup> Optional dual slot riser required for additional two PCIe slots.

<sup>16</sup> Rack mounting hardware available as configured to order or after market.

## Technical Specifications Footnotes

<sup>1</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.

<sup>2</sup> Note: For detailed Linux® OS/hardware support information, see: [http://www.hp.com/support/linux\\_hardware\\_matrix](http://www.hp.com/support/linux_hardware_matrix).

<sup>3</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>4</sup> Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd part software in order to run. Features of vPro® Essentials and Enterprise vary. See <http://intel.com/vpro>.

<sup>5</sup> For hard drives and solid state drives, 1 GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 35 GB of system disk is reserved for system recovery software.

<sup>6</sup> 3.5" drive bay can be configured with a carrier to support two 2.5" drives. 2.5" drives sold separately. 2.5" drive bays support up to 2 M.2 drives with addition of HP 2.5 in Dual Drive Cage Adapter.

<sup>7</sup> 16 GB, 32 GB, 64 GB 4800 MHz SDRAM are supported.

<sup>8</sup> Optional or add-on feature.

<sup>9</sup> Based on US EPEAT® registration according to IEEE 1680.1-2018 EPEAT®. EPEAT® status varies by country. Visit [www.epeat.net](http://www.epeat.net) for more information.

<sup>10</sup> HP Performance Advisor Software - HP Performance Advisor is ready and waiting to help you get the most out of your HP Workstation from day one and every day after. Learn more or download at: <https://www6.hp.com/us/en/workstations/performance-advisor.html>.

<sup>11</sup> HP Support Assistant requires Windows and Internet access.

<sup>12</sup> HP Manageability Integration Kit can be downloaded from <http://www8.hp.com/us/en/lads/clientmanagement/overview.html>.

<sup>13</sup> HP Sure Click requires Windows 10 or 11 Pro or higher. See [https://bit.ly/2PrLT6A\\_SureClick](https://bit.ly/2PrLT6A_SureClick) for complete details.

<sup>14</sup> HP Sure Start requires Windows 10 or 11 or higher.

<sup>15</sup> HP Sure Recover Gen4 is available on select HP PCs and requires an open network connection. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data.

<sup>16</sup> HP Sure Sense requires Windows 10 or 11 Pro or Enterprise and higher.

<sup>17</sup> HP Sure Run Gen5 requires Windows 10 or 11 Pro or higher.

<sup>18</sup> HP Sure Admin requires Windows 10 or higher, HP BIOS, HP Manageability Integration Kit from

<http://www.hp.com/go/clientmanagement> and HP Sure Admin Local Access Authenticator smartphone app from the Android or Apple store.

<sup>19</sup> HP Secure Erase for the methods outlined in the National Institute of Standards and Technology Special Publication 800-88 "Clear" sanitation method. HP Secure Erase does not support platforms with Intel® Optane™.

<sup>20</sup> HP BIOSphere Gen6 features may vary depending on the platform and configurations.

<sup>21</sup> HP Wolf Pro Security Edition is available preloaded on select SKUs, and, depending on the HP product purchased, includes a license with a term length communicated to you at purchase and in your order confirmation email. The HP Wolf Pro Security Edition software is licensed under the license terms of the HP Wolf Security Software - End-User License Agreement (EULA) that can be found at: [https://support.hp.com/us-en/document/ish\\_3875769-3873014-16](https://support.hp.com/us-en/document/ish_3875769-3873014-16) as that EULA is modified by the following: 7. Term. Unless otherwise terminated earlier pursuant to the terms contained in this EULA, the license for the HP Wolf Pro Security Edition is effective upon 4 months after the date the HP Product was shipped by HP and will continue for the term communicated to you at purchase and in your order confirmation email ("Initial Term"). At the end of the Initial Term you may either (a) purchase a renewal license for the HP Wolf Pro Security Edition from HP.com, HP Sales or an HP Channel Partner, or (b) continue using the standard versions of HP Sure Click and HP Sure Sense at no additional cost with no future software updates or HP Support. Notwithstanding the foregoing, the license shall expire no later than one year after the fixed term of the subject license ends.

<sup>22</sup> Note: Windows 7 and Windows 8 operating systems are not supported on this product. No Windows 7 or Windows 8 drivers will be provided on <http://www.support.hp.com>.

<sup>23</sup> The NVIDIA RTX™ A4000 is supported in a dual graphics configuration, but the second graphics card must be bought aftermarket.

<sup>24</sup> Intel® Turbo Boost performance varies depending on hardware, software and overall system configuration. See [www.intel.com/technology/turboboost](http://www.intel.com/technology/turboboost) for more information.

<sup>25</sup> Internet service required and sold separately.

<sup>26</sup> Network access required. HP Anyware software and licensing are available through a 1- or 3-year subscription. Renewal is required after the subscription term. HP Anyware subscriptions are based on the number of concurrent PCoIP connections used (pay for the number of host connections, not the software) with a minimum order quantity of 5. For a limited time, an HP Anyware Professional subscription also includes access and support for ZCentral Remote Boost and ZCentral Connect and is available for purchase through an HP reseller or contact sales at [hp.com/Anyware](mailto:hp.com/Anyware). ZCentral Remote Boost Sender requires Windows 10 and 11, RHEL/CentOS (7 or 8), or UBUNTU 18.04 or 20.04 LTS operating systems. macOS (10.14 or newer) operating system and ThinPro 7.2 are only supported on the receiver side. ZCentral Connect requires Windows (10 or 11) or Windows Server (2016 or 2019) operating system, Microsoft Active Directory, and Intel Active Management Technology for select features. For system requirements and to install HP Anyware and Anyware Manager, refer to the Admin Guides at: <https://docs.teradici.com/find/product/hp-anyware>.

<sup>27</sup> Z by HP Data Science Stack Manager requires Windows 10 version 21H2 (Build 19044) and higher or 64-bit Ubuntu 20.04 and is available on select Z workstations.

<sup>28</sup> HP Anyware Remote System Controller is an optional feature.

<sup>29</sup> Internet access required. Automation of tasks and viewing system information only available with select Z desktop workstations, see datasheet for details. Fleet management and viewing of consolidated reports from all devices requires HP Anyware Remote System Management. HP Anyware Integrated Remote System Controller not compatible with Z2 Mini platforms and not recommended for non-Z devices. HP service and support not available for non-Z devices. Full suite of hardware alerts available with select Z desktop workstations. See datasheet for details.

<sup>30</sup> myHP requires Windows OS.

<sup>31</sup> HP Cloud Recovery is available for Z by HP, HP Elite and Pro desktops and laptops PCs with Intel® or AMD processors and requires an open, wired network connection. Note: You must back up important files, data, photos, videos, etc. before use to avoid loss of data. For details, please refer to: <https://support.hp.com/us-en/document/c05115630>.

<sup>32</sup> HP Services Scan is provided with Windows Update on select products and will check entitlement on each hardware device to determine if an HP TechPulse-enabled service has been purchased, and will download applicable software automatically. HP TechPulse is a telemetry and analytics platform that provides critical data around devices and applications. For full system requirements or to disable this feature, please visit <http://www.hpdaas.com/requirements>. Not applicable in China.
